Bill,

The Sand Springs Five Year Review was signed on 7/3/15 so we need to get a fact sheet concerning the completion of the Five Year Review out.

Thanks, Hebert

Bill,

Was thinking something along these lines for a fact sheet for Sand Springs. This was developed for a different site but it should give you a feel for what I am looking for. Take a look and let me know what you think.

Thanks, Hebert

Subject: Upcoming complete Five Year Reviews

Jason/Stephen,

The Five Year Review's for the American Creosote site and the South Valley site will be completed soon. American Creosote in May and South Valley prior to August (it is being routed as this is written).

While we have changed the structure of the Five Year Review's, they still are not public reading friendly. As such, I took a crack at taking our standard fact sheet format and converting it to describe the Five Year Review – so the public would not have to read the FYR. I have attached the one I drafted up for American Creosote but I would think we could do the same for South Valley.

Please take a look and let me know what you think. Obviously there are some formatting edits that need to be done but there are probably also some wording edits/additions that need to be done.

The American Creosote version we will want to issue in June soon after completion of the FYR.

9789412

Thanks, Hebert
